Summary

Results-driven Software Engineer with over 4 years of experience in developing and deploying scalable full-stack web applications. Proven ability to increase user engagement and system efficiency while delivering impactful digital solutions in the healthcare, finance, and travel sectors. Deeply committed to writing clean, maintainable code and leveraging technology to solve complex business problems.

Work Experience

Senior Full Stack Developer

June 2024 – Present

Onenex (Atlas Digi) - YOMA GROUP

- Develop and maintain high-traffic web applications for **Lender Applications** and **Banking Transaction Applications**, handling over 10,000 daily transactions.
- Partner with cross-functional teams to design and implement 5+ major features, improving system architecture and leading to a 15% increase in user satisfaction.
- Identify and resolve critical performance bottlenecks, resulting in a **30% improvement in API response times** and a **25% reduction in server load**.

Junior Full Stack Developer

July 2022 – May 2024

Onenex (Atlas Digi) - YOMA GROUP

- Contributed to the development of 3 core applications, including the **'HEAL' Medical App**, growing its user base to over 20,000 active users.
- Collaborated with a team of 5 developers to troubleshoot and upgrade legacy systems, reducing critical bugs by **40%** and enhancing system stability.
- Adhered to **Agile methodologies** to deliver features in bi-weekly sprints, consistently meeting all project deadlines.

Freelance Web Developer

2020 – 2022

Self-Employed

- Delivered custom websites and web applications for a diverse range of clients, from initial consultation to final deployment.
- Utilized technologies including **PHP**, **JavaScript (React)**, and **WordPress** to build solutions that boosted client revenue by an average of 15%.

Technical Skills

Frontend: HTML, CSS, Bootstrap, Tailwind, JavaScript, TypeScript (Vue.js, Nuxt.js, Next.js, React.js, Alpine.js)

Backend: PHP (Laravel, Livewire, Lumen), Node.js (Adonis.js, NestJS, Express.js)

Databases: MySQL, SQLite, PostgreSQL, MongoDB

DevOps Tools: AWS, Docker, Git, GitHub, GitLab, CI/CD, Sentry

API Technologies: RESTful APIs, GraphQL APIs

Additional Skills: Python (Flask), Go (Fiber), Jira, ClickUp

Soft Skills

Communication: Excellent verbal and written communication skills, with experience presenting technical concepts to both technical and non-technical stakeholders.

Teamwork and Collaboration: Proven ability to work effectively in cross-functional teams, fostering a collaborative environment to achieve project goals.

Problem-Solving: Strong analytical and problem-solving skills, with a track record of identifying and resolving complex technical issues.

Projects

Yoma Group Employee Payroll System

GraphQL — Laravel — Vue.js — MySQL

- Designed a comprehensive payroll system to calculate **salaries**, **allowances**, and **taxes** for over 500 employees.
- Integrated **GraphQL** and **RESTful APIs**, which reduced data retrieval times by **40%** compared to the previous system.

AYA Banking Transaction System

Node.js — Adonis.js — React.js — TailwindCSS

- Developed a secure, scalable system to manage over 1,000 users, 200 merchants, and 500 terminals.
- Built role-based components using **Adonis.js**, resulting in a **30% faster onboarding process** for new merchants.

Education

Bachelor of Science in Computer Science

Expected Graduation: July 2026

University of The People

Bachelor of Science in Computer Science

2018 – 2021

Dagon University

Languages

Myanmar (Burmese): Native

English: Professional Proficiency

Japanese: Intermediate (N3)

German: Elementary (A2)
